

In addition to FirstLight's standard permit application material requirements, communities must also provide the information, documentation, and applicable fees listed below:

- Primary Email Contact for all FirstLight Communications (The community should establish an email address for the community and use this email when creating a Property Owner account for FirstLight's online application and permit system. This email should be used for all communications from the Community with FirstLight)**
- Primary Mailing Address for all FirstLight Communications – (i.e. P.O. Box)**
- List Board of Officers who can speak on behalf of the Community and who are authorized to apply for and sign permits.**
- Community Representatives Contact Information**
- Copy of Deed for the abutting Parcel, Easement Agreements, and/or typical deed from a non-abutting property within the community.**
- Copy of Community Bylaws**
- Membership list of properties within the Community, broken down by Abutting Properties (parcels that abut the Project Boundary) and Non-Abutting Properties (parcels that do not abut the Project Boundary).**
- Aerial Map of areas currently occupied by Community Shoreline and Land Uses and/or areas where requested future uses and/or activities are proposed.**
- Designs, Drawings and/or sketches of the current configuration of any and all Community managed/operated vessels slips.**
- If requested by FirstLight, a survey, defining all the existing and any proposed new uses to be installed and/or maintained by the Community within the FERC Project Boundary. Dimensions and locations of any and all uses.**
- Authorization for Property Management Service if any.**
- Additional Fees (Refer to SMP Appendix F Administrative Fee Schedule)**
- Additional Fees (Requesting a Community Dock Replacement, Modification or Slip Increase - \$10,000 in addition to other review fees.)**

(See "SAMPLES" Below)

Community Docking System capable of securing 14 Vessels
